“The year is off to a strong start, with Smart & Final Stores delivering against our business plans and financial objectives,” said Dave Hirz, President and Chief Executive Officer. “Once again, sales performance across both of our banners was strong, resulting in a 6.1% total company comparable store sales increase. Underlying our robust sales performance is the expansion of our Smart & Final *Extra!* stores and our supporting slate of merchandising and marketing initiatives.”

Mr. Hirz continued, “We have a unique retail model which is resonating with today’s consumers. Our two banners – Smart & Final and Cash & Carry – are highly complementary, offering shoppers a wide range of quality products with exceptional value and in a highly convenient shopping experience. And importantly, our growth plans are on track, with new store development, a steady pace of Smart & Final legacy-to-*Extra!* store conversions, and merchandising and marketing activities all contributing positively to our financial performance.”

*In order to aid understanding of the Company’s business performance, it has presented results in conformity with accounting principles generally accepted in the United States (“GAAP”) and has also presented adjusted net income, adjusted net income per share, adjusted net income per diluted share, EBITDA and adjusted EBITDA, which are non-GAAP measures that are explained and reconciled to the comparable GAAP measures in the tables included in this release. **Non-GAAP Financial Measures**

To supplement the Company's financial information presented in accordance with GAAP, the Company uses certain non-GAAP financial measures, namely adjusted net income, adjusted net income per share, adjusted net income per diluted share, EBITDA and Adjusted EBITDA to clarify and enhance understanding of its past performance. The Company defines adjusted net income as net income adjusted for the items set forth in the tables below. The Company defines adjusted net income per share as adjusted net income divided by the weighted average basic shares outstanding. The Company defines adjusted net income per diluted share as adjusted net income divided by the weighted average diluted shares outstanding. The Company defines EBITDA as net income

before depreciation and amortization, interest expense and provision for income tax, and adjusted EBITDA as EBITDA adjusted for the items set forth in the tables below.

Use of these non-GAAP measures may differ from similar measures reported by other companies. Each of these non-GAAP measures has its limitations as an analytical tool, and you should not consider them in isolation or as a substitute for analysis of the Company's results as reported under GAAP.

The following tables present reconciliations of adjusted net income, EBITDA and adjusted EBITDA to net income, and adjusted net income per share and adjusted net income per diluted share to net income per share, for the twelve-week periods ended March 22, 2015 and March 23, 2014.
